

Biodata

Ir. Lee Chee Kien graduated from the University of Nottingham with an MEng (First Class Honors) in 2015. He became a corporate member of the Institution of Engineers Malaysia (IEM) in 2021 and was admitted as an Associate Member of the Chartered Institute of Arbitrators (CI Arb) in 2023. Since graduation, he has served as the geotechnics lead for projects of various natures, such as residential buildings, railway infrastructure, ground treatment, water supply, slope engineering, as well as forensic investigation works. Ir. Lee has been actively contributing to the engineering fraternity since graduation, serving as a committee member of IEM in the Tunnelling and Underground Space Technical Division (TUSTD) from 2017 to 2019, and then for the Geotechnical Engineering Technical Division (GETD) since 2022. Over the years, he has authored several publications on ground treatment, foundation engineering, and tunnelling works. Ir. Lee is currently practicing in Arup Malaysia, where he leads various geotechnical engineering projects in the region.
